## Confirmation & Submission

We require a donation ranging from \$100 to \$600 for each adoption. The donation is based on the age and health of the dog being adopted as well as its level of training. 100% of donations are directed to the veterinary expenses of dogs in our care.

All dogs available for adoption are spayed/neutered, fully vaccinated, microchipped, checked for heartworm and (usually) tick-borne diseases and have had any known health medical needs addressed. They have received basic obedience training, crate training, and are reliably housebroken (unless otherwise disclosed).

Please understand that bullmastiffs are large dogs and their care is expensive. If you cannot afford the adoption fee, you will likely not be able to afford ongoing appropriate vet care for any bullmastiff. Please consider this carefully before submitting your application.

Applicants that adopt a dog from BRI will be required to execute an adoption contract that includes your agreement to follow slow introduction to resident animals and transition protocols which will be explained prior to placement. These protocols were designed to provide the best chance of success of a new dog arriving in an adoptive home.

All references WILL BE checked and verified. Any falsified information will cause application cause application to be rejected. BRI reserves the right to deny adoption to any applicant or individual(s).

Please submit your application electronically by emailing it to [bri.socialmedia1@gmail.com](mailto:bri.socialmedia1@gmail.com)

Doing so, indicates your acceptance of the above confirmation and acknowledges you have answered all questions truthfully.
